5 people have recommended Andrew

"Andrew's technical wizardary shines through in all that he does as webmaster of London Western's website. With the planned additions that Andrew has made, the website is now a more valuable communications and leadership asset."

— **Mark Phipps**, *President, London Western (4189), Toastmasters International*, managed Andrew indirectly at Toastmasters International

"In addition to being an excellent programmer, Andrew is a very astute businessman. His vast knowledge of the most up-to-date computer happenings, combined with his entrepreneurial spirit make him an asset to our company. We often collaborate on projects; his ability to create solutions that address the needs of both our clients and our business give me peace of mind that the job will be done right. I recommend his services without hesitation."

— **Sebastian Gerber**, *CCS, Account Executive, Link+ Corporation*, worked with Andrew at Link+ Corporation

"It is pleasure to work with Andrew and he is a good leader also. He has both technical and management skill. He would be a person of great standing for any team or company"

— **Paul Chen**, *Senior Developer, Buckland Customs Brokerage*, worked directly with Andrew at Buckland Customs Brokers

"My experience working with Andrew has shown me that he is knowledgable and proffessional. I recall that the management leaned on him when they needed a tough problem solved."

— **Jeff Dease**, *Senior Software Developer, Iciniti Corporation*, worked directly with Andrew at Iciniti Corporation

"Andrew was a hard working and caring employee with excellent development skills. He managed many successful projects for Iciniti and had a good working relationship with our customers."

— **Bill Parkinson**, *President, Iciniti Corporation*, managed Andrew indirectly at Iciniti Corporation
